Product Data Sheet

EF-1 WEIGHTED SOAP STICK

DESCRIPTION:

EF-1 Weighted Soap Sticks are composed of nonionic surfactants, foam boosting agents and weighting material. They are produced in a solid cylindrical form. The high density of this particular product allows it to fall more rapidly than conventional un-weighted foam sticks.

Upon application, the stick will fall to the bottom of the water level, closer to any agitation from flow through gas. Thus, on wells of only marginal agitation from flow through gas, this stick can foam the accumulated fluids more effectively, from the bottom up.

USAGE:

For unloading fluid buildup in gas wells, drop 4 – 6 sticks down the tubing. Shut the well in for 30 minutes – 2 hours. Then open the well back up to a minimal system pressure. A regular maintenance treatment program is recommended. By dropping 1 –3 sticks on a regular basis, higher levels of production can be maintained and unnecessary swabbing can be eliminated.

Actual minimum stick usage and shut in times can vary significantly from well to well. We suggest the above mentioned usage rates be used as starting points and then adjusted up or down depending on your wells responsiveness to this product.

HANDLING AND STORAGE:

EF-1 Weighted Soap Sticks are industrial chemicals. All safety and handling on the product container and material safety data sheet must be followed. For detailed safety and disposal information, consult the material safety data sheet. This product should be stored in a cool, dry location.

PHYSICAL PROPERTIES:

FORM----- Solid cylindrical
COLOR-----Pale Pink
DENSITY (150°F, lbs/ gal)-----12.9
SPECIFIC GRAVITY-----1.548
MELTING POINT-----135°F

AVAILABILITY:

EF-1 Weighted Soap Sticks are available in the following sizes: 1-5/8" X 18", 1-3/8" X 15", 1-1/4" X 15". The 1-5/8" X 18" are packed 40 sticks per case. The 1-3/8" X 15" and the 1-1/4" X 15" come packaged 70 sticks per case. They are available in 50-quart coolers, Dry boxes and other containers. Contact Eagle Solid Products, Inc. for more details.
