Product Data Sheet

EW-12 WATER TREATING CHEMICAL STICK

DESCRIPTION:

EW-12 Water Treating Chemical Sticks are composed of surfactants and cocodiamine salts. This compound is effective in the control of microbiologically induced corrosion. It is also effective in the removal of iron sulfide accumulations associated with the presence of sulfate reducing bacteria. EW-12 Water Treating Chemical Sticks will perform effectively in low and high chloride brines and in the presence of produced hydrocarbons. EW-12 Water Treating Chemical Sticks can be used in oil storage tanks that have accumulated tank bottoms associated with iron sulfide. They may also be used in the water tanks of water injection systems to aid in the reduction of injection pressure.

APPLICATION:

One (1) 1-5/8" X 18" or two (2) 1-3/8" X 15-1/2" sticks when added to 100 bbls of fluid will yield a concentration of 250 ppm of the product. Regular maintenance treatments with 2 – 4 EW-12 Water Treating Chemical Sticks twice a week per tank will effectively reduce the problems associated with sulfate reducing bacteria. Actual minimum stick usage can vary significantly from system to system. We suggest the above mentioned usage rates be used as starting points and then adjusted up or down depending on your systems responsiveness to this product.

HANDLING AND STORAGE:

EW-12 Water Treating Chemical Sticks are industrial chemicals. All safety and handling on the product container and material safety data sheet must be followed. For detailed safety and disposal information, consult the material safety data sheet. This product should be stored in a cool, dry location.

PHYSICAL PROPERTIES:

FORM----- Solid cylindrical
COLOR----- Yellow - Tan
DENSITY (150°F, lbs/ gal)-----8.9
SPECIFIC GRAVITY-----1.070
MELTING POINT-----130°F

AVAILABILITY:

EW-12 Water Treating Chemical Sticks are available in the following sizes: 1-5/8" X 18", 1-3/8" X 15", 1-1/4" X 15". The 1-5/8" X 18" are packed 40 sticks per case. The 1-3/8" X 15" and the 1-1/4" X 15" come packaged 70 sticks per case. They are available in 50-quart coolers, Dry boxes and other containers. Contact Eagle Solid Products, Inc. for more details.
